

Fallon Senior Plan

2009 Formulary – Group 2 (List of Covered Drugs)

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION
ABOUT THE DRUGS WE COVER IN THIS PLAN**

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

last updated: 09/22/08

What is the Fallon Senior Plan Formulary?

A formulary is a list of covered drugs selected by Fallon Community Health Plan in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Fallon Community Health Plan will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Fallon Senior Plan network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your *Evidence of Coverage*.

Can the Formulary change?

Generally, if you are taking a drug on our 2009 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2009 coverage year except when a new, less-expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year. We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or we can ensure your safety.

If we remove drugs from our formulary, or add prior authorization and/or quantity limits on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. The enclosed formulary is current as of September 22, 2009. To get updated information about the drugs covered by Fallon Senior Plan, please visit our Web site at www.fchp.org/Seniors/OnlineDrugFormulary, select 'group' and then, depending on which plan you are enrolled in, select 'Fallon Senior Plan Premier – Group 2' or 'Fallon Senior Plan Premier Preferred – Group 2'. Or, call Customer Service at 1-800-868-5200, seven days a week from 8 a.m. to 8 p.m. TDD/TTY users should call 1-877-608-7677.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "Cardiovascular Agents". If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 82. The Index provides an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

Fallon Senior Plan covers both brand-name drugs and generic drugs. A generic drug has the same active ingredient as the brand name drug. Generic drugs usually cost less than brand name drugs and are approved by the Food and Drug Administration (FDA).

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Fallon Community Health Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from Fallon Community Health Plan before you fill your prescriptions. If you don't get approval, Fallon Senior Plan may not cover the drug.
- **Quantity Limits:** For certain drugs, Fallon Community Health Plan limits the amount of the drug that Fallon Senior Plan will cover. For example, Fallon Community Health Plan provides 30 tablets per 30-day supply per prescription for ACTOS. This may be in addition to a standard one-month or three-month supply.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1.

For more information

For more detailed information about your Fallon Senior Plan prescription drug coverage, please review your *Evidence of Coverage* and other plan materials.

If you have questions about Fallon Senior Plan, please call Customer Service at 1-800-868-5200, seven days a week from 8 a.m. to 8 p.m. TDD/TTY users should call 1-877-608-7677. Or visit www.fchp.org.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY/TDD users should call 1-877-486-2048. Or, visit www.medicare.gov.

Fallon Senior Plan Formulary

The formulary that begins on the next page provides coverage information about some of the drugs covered by Fallon Senior Plan. If you have trouble finding your drug in the list, turn to the Index that begins on page 82.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., LIPITOR) and generic drugs are listed in lower-case italics (e.g., *amoxicillin*).

The information in the Requirements/Limits column tells you if Fallon Senior Plan has any special requirements for coverage of your drug. The following is an explanation the codes that may appear in this column.

Code	Explanation
PA	Prior authorization is required. Your health care provider must contact Fallon Community Health Plan to arrange this.
QL	Quantity limits may be set for certain drugs depending upon available safety data. For example, only nine tablets of AMBIEN per 30 days.
LA	This prescription may be available only at certain pharmacies. For more information consult your Pharmacy Directory or call Customer Service at 1-800-868-5200, seven days a week from 8 a.m. to 8 p.m. TDD/TTY users should call 1-877-608-7677.
