

March 27, 2009

Dear ,

We value your membership with Fallon Senior Plan™.

Our records indicate that you recently have been prescribed or you have been taking (Nitroglycerine 2.5MG Cap, Nitroglycerine 9MG Cap, Benzonatate 100MG Cap, or Mephyton 5MG Tab), drugs that are not classified as Medicare Part D drugs.

Though we have processed claims for these drugs in the past, the Centers for Medicare & Medicaid Services has determined that these drugs are not covered under Medicare Part D.

Therefore, effective June 1, 2009, these drugs will not be available through your Fallon Senior Plan Medicare prescription drug benefits. We recommend that you ask your prescribing provider about appropriate Part D alternatives to the drugs that you have been taking.

We apologize for any inconvenience this may cause you. If you have any questions about your benefits, please call our Customer Service Department at 1-800-868-5200 (TDD/TTY: 1-877-608-7677), seven days a week from 8 a.m. to 8 p.m.

Sincerely,

A handwritten signature in black ink that reads "Leslie S. Fish, Pharm.D." with a stylized flourish at the end.

Leslie S. Fish, Pharm.D.
