## 2009 Formulary (List of Covered Drugs)

PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION  
ABOUT THE DRUGS WE COVER IN THIS PLAN

**Note to existing members:** This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

## **What is the Fallon Senior Plan Formulary?**

A formulary is a list of covered drugs selected by Fallon Community Health Plan in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Fallon Community Health Plan will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Fallon Senior Plan network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your *Evidence of Coverage*.

## **Can the Formulary change?**

Generally, if you are taking a drug on our 2009 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2009 coverage year except when a new, less-expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year. We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or we can ensure your safety.

If we remove drugs from our formulary, or add prior authorization and/or quantity limits on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. The enclosed formulary is current as of September 8, 2008. To get updated information about the drugs covered by Fallon Senior Plan, please visit our Web site at [www.fchp.org](http://www.fchp.org) or call Customer Service at 1-800-868-5200, seven days a week from 8 a.m. to 8 p.m. TDD/TTY users should call 1-877-608-7677.

## **How do I use the Formulary?**

There are two ways to find your drug within the formulary:

### **Medical Condition**

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "Cardiovascular Agents". If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

### **Alphabetical Listing**

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 48. The Index provides an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

## What are generic drugs?

Fallon Senior Plan covers both brand-name drugs and generic drugs. A generic drug has the same active ingredient as the brand name drug. Generic drugs usually cost less than brand name drugs and are approved by the Food and Drug Administration (FDA).

## Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Fallon Community Health Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from Fallon Community Health Plan before you fill your prescriptions. If you don't get approval, Fallon Senior Plan may not cover the drug.
- **Quantity Limits:** For certain drugs, Fallon Community Health Plan limits the amount of the drug that Fallon Senior Plan will cover. For example, Fallon Community Health Plan provides 30 tablets per 30-day supply per prescription for ACTOS. This may be in addition to a standard one-month or three-month supply.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1.

You can ask Fallon Community Health Plan to make an exception to these restrictions or limits. See the section, "How do I request an exception to the Fallon Senior Plan Formulary?" on page ii for information about how to request an exception.

## What if my drug is not on the Formulary?

If your drug is not included in this formulary, you should first contact Customer Service and ask if your drug is covered. If you learn that Fallon Senior Plan does not cover your drug, you have two options:

- You can ask Customer Service for a list of similar drugs that are covered by Fallon Senior Plan. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by Fallon Senior Plan.
- You can ask Fallon Senior Plan to make an exception and cover your drug. See below for information about how to request an exception.

## How do I request an exception to the Fallon Senior Plan Formulary?

You can ask Fallon Senior Plan to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover your drug even if it is not on our formulary.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, Fallon Senior Plan may limit the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover more.
- You can ask us to provide a higher level of coverage for your drug. If your drug is contained in our highest tier subject to the tiering exceptions process tier, you can ask us to cover it at the cost-sharing amount that applies to drugs in the lowest tier subject to the tiering exceptions process tier instead. This would lower the amount you must pay for your drug. Please note, if we grant your request to

cover a drug that is not on our formulary, you may not ask us to provide a higher level of coverage for the drug.

Generally, Fallon Senior Plan will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower-tiered drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tiering or utilization restriction exception. When you are requesting a formulary, tiering or utilization restriction exception, you should submit a statement from your physician supporting your request. Generally, we must make our decision within 72 hours of getting your prescribing physician's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get your prescribing physician's supporting statement.

### **What do I do before I can talk to my doctor about changing my drugs or requesting an exception?**

As a new or continuing member in our plan, you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary, but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary, or if your ability to get your drugs is limited, we will cover a temporary 30-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will cover a temporary 31-day transition supply (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan. If you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

If you are a new member who has been on a medication that is not on our formulary or needs a prior authorization, Fallon Community Health Plan ensures that you will be able to receive a 30-day supply of this medication within the first 90 days of your membership, as of your effective date of coverage. However, this 30-day supply will be considered a "transitional supply" of the medication. You will need to either have your provider prescribe a medication that is on our formulary or request a formulary exception.

When you pick up your prescription, the pharmacist may tell you that the prescription is a transitional supply. Within three business days, you will receive a notice from Fallon Community Health Plan confirming that you received a transitional supply. You also will receive information about how to work with your prescribing provider and Fallon Community Health Plan to identify alternative medications that are on Fallon Senior Plan's formulary, an explanation of your right to request a formulary exception (that is, prior authorization approval to continue with the current medication), and the procedures for requesting a formulary exception.

If the pharmacist fills your transitional supply of medication for less than the prescribed amount (due to a plan limitation such as a quantity limit), Fallon Community Health Plan will allow refills of this medication up to the prescribed amount while you are pursuing a formulary exception.

Copayment amounts for transitional supplies are based on approved cost-sharing tiers and are consistent with cost-sharing amounts that Fallon Community Health Plan charges for non-formulary drugs approved under a coverage exception. If you receive extra help for your Medicare prescription drug coverage, the copayments for transitional supplies of medication will not exceed the current statutory maximum copayment amounts.

### **For more information**

For more detailed information about your Fallon Senior Plan prescription drug coverage, please review your *Evidence of Coverage* and other plan materials.

If you have questions about Fallon Senior Plan, please call Customer Service at 1-800-868-5200, seven days a week from 8 a.m. to 8 p.m. TDD/TTY users should call 1-877-608-7677. Or visit [www.fchp.org](http://www.fchp.org).

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY/TDD users should call 1-877-486-2048. Or, visit [www.medicare.gov](http://www.medicare.gov).

## Fallon Senior Plan Formulary

The formulary that begins on the next page provides coverage information about some of the drugs covered by Fallon Senior Plan. If you have trouble finding your drug in the list, turn to the Index that begins on page 48.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., LIPITOR) and generic drugs are listed in lower-case italics (e.g., *amoxicillin*).

The information in the Requirements/Limits column tells you if Fallon Senior Plan has any special requirements for coverage of your drug. The following is an explanation the codes that may appear in this column.

| Code | Explanation  |
|------|--|
| PA   | Prior authorization is required. Your health care provider must contact Fallon Community Health Plan to arrange this.  |
| QL   | Quantity limits may be set for certain drugs depending upon available safety data. For example, only nine tablets of AMBIEN per 30 days.   |
| ND   | This prescription drug is not normally covered in a Medicare Prescription Drug Plan. The amount you pay when you fill a prescription for this drug does not count towards your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage). In addition, if you are receiving extra help to pay for your prescriptions, you will not get any extra help to pay for this drug. |
| LA   | This prescription may be available only at certain pharmacies. For more information consult your Pharmacy Directory or call Customer Service at 1-800-868-5200, seven days a week from 8 a.m. to 8 p.m. TDD/TTY users should call 1-877-608-7677.  |
