How to receive care:

With FCHP Select Care Premium Saver 2000 Classic, you can choose to get your care from doctors, specialists, hospitals and health care facilities in the FCHP Select Care network. You can be seen at physician practices, community hospitals

and medical facilities across Massachusetts and Southern New Hampshire, giving you a wide choice of health care providers. For a complete list of FCHP Select Care providers, visit the "Find a Doctor" tool on fchp.org.

Choosing a primary care provider (PCP)

Your relationship with your PCP is very important because he or she will work with FCHP to provide or arrange most of your care. As a member of FCHP Select Care Premium Saver 2000 Classic, you must select a PCP. To do this, just complete the section on your FCHP membership enrollment form. If you need help choosing a PCP, please visit the "Find a Doctor" tool on fchp.org or call Customer Service.

Obtaining specialty care

When you want to visit a specialist, talk with your PCP first. He or she will help arrange specialty care for you. The following services do not require a referral when you see a provider in the FCHP Select Care network: routine obstetrics/gynecology care, screening eye exams and behavioral health services. For more information on referral procedures for specialty services, consult your FCHP Select Care *Member Handbook/Evidence of Coverage*.

Emergency medical care

Emergency services do not require referral or authorization. When you have an emergency medical condition, you should go to the nearest emergency department or call your local emergency communications system (police, fire department or 911). For more information on emergency benefits and plan procedures for emergency services, consult your FCHP Select Care *Member Handbook/Evidence of Coverage*.

Plan specifics

Benefit period

The benefit period, sometimes referred to as a “benefit year,” is the 12-month span of plan coverage, and the time during which the deductible, out-of-pocket maximum and specific benefit maximums accumulate.

Varies by employer

Deductible

A deductible is the amount of allowed charges you pay per benefit period before payment is made by the plan for certain covered services. The amount that is put toward your deductible is calculated based on the allowed charge or the provider’s actual charge—whichever is less.

\$2,000 individual
\$4,000 family

Embedded deductible

Please note that once any one member in a family accumulates \$2,000 of services that are subject to the family deductible, that individual member’s deductible is considered met, and that family member will receive benefits for covered services less any applicable copayments.

\$2,000

Deductible carryover

Any deductible amount that is incurred by the member for services rendered during the last three months of the benefit period will be applied toward the deductible for the next benefit period. Deductible amounts are incurred as of the date of the service.

Included

Out-of-pocket maximum

The out-of-pocket maximum is the total amount of deductible, coinsurance and copayments you are responsible for in a benefit period. Items that do not count towards your out-of-pocket maximum include payment for prescriptions, chiropractic services, mental and behavioral health. The out-of-pocket maximum also does not include your premium charge or any amounts you pay for services that are not covered by the plan.

\$4,000 individual
\$8,000 family
