How to receive care:

With Fallon Preferred Care QHD 2000 HSA, you have an extensive regional and national network of providers from which to choose. The Fallon Preferred Care network is comprised of over 600,000 network providers—giving you the flexibility to receive care close to where you live and work.

In-network and out-of-network coverage

Fallon Preferred Care is a preferred provider organization (PPO) plan, and as such, we contract with a network of participating providers who have agreed to provide health care services to our members—your use of participating providers is strictly voluntary.

When you obtain covered services from participating providers, you will receive the in-network level of benefits. We pay participating providers directly; you will not have to file claims when you use participating providers. When you obtain covered services from nonparticipating providers, you get the out-of-network level of benefits. You may need to submit a claim for covered services you receive from nonparticipating providers. For information on claims submission, refer to your Fallon Preferred Care *Evidence of Coverage*.

Emergency medical care

Emergency services do not require referral or authorization. When you have an emergency medical condition, you should go to the nearest emergency department or call your local emergency communications system (police, fire department or 911). For more information on emergency benefits and plan procedures for emergency services, consult your Fallon Preferred Care *Evidence of Coverage*.

Plan specifics	In-network	Out-of-network
Benefit period The benefit period, sometimes referred to as a “benefit year,” is the 12-month span of plan coverage, and the time during which the deductible, out-of-pocket maximum and specific benefit maximums accumulate.		
Deductible A deductible is the amount of allowed charges you pay per benefit period before payment is made by the plan for certain covered services. Embedded deductible Please note that once any one member in a family accumulates \$2,600 of services that are subject to the family deductible, that individual member’s deductible is considered met, and that family member will receive benefits for covered services less any applicable copayments.	\$2,600	\$5,200
Out-of-pocket maximum The out-of-pocket maximum is the total amount of deductible, coinsurance and copayments you are responsible for in a benefit period.
