FCHP Pharmacy Prior Authorization Form (page 2) Trilipix (fenofibric acid) Clinical Information Worksheet

Please fax the completed FCHP pharmacy prior authorization form (page 1) and clinical information worksheet (page 2) to **1-508-791-5101**.

FCHP preferred formulary alternates:

generic fenofibrate

*If a formulary alternate is acceptable, please do **not** complete this PA form. Please forward a new prescription for the formulary alternate to the patient's pharmacy. Otherwise, please complete the information requested below.*

Member _____ DOB _____ FCHP ID# _____

- Please forward clinical notes from the patient's medical records documenting previously tried medication, reason for discontinuation of previously tried medication, and documentation of diagnosis (including any applicable labs and /or tests). This is required information.
- Please complete the clinical information requested below as completely as possible.
 - Has the patient tried the above formulary medication? Yes No
If not listed, please indicate what medications have been used: _____
 - Is there any reason why the formulary medication could not be used? (Please explain):

 - Other information: _____

Note:

Although fenofibrate has not been approved by the FDA for use in combination with statins, there are several trials evaluating the safety and efficacy of fenofibrate in combination with a statin. Based on available data, there appears to be no significant difference in the safety and efficacy of combining either Trilipix (fenofibric acid) or fenofibrate with a statin. Both fenofibrate and fenofibric acid appear to be relatively safe when combined with statins.
