

FCHP Commonwealth Care

Plan type 3

Benefit Summary

Effective 7/1/11

Commonwealth Care

Commonwealth Care is a program run by the Commonwealth Health Insurance Connector Authority (The Health Connector). This program connects qualified Massachusetts residents with affordable health insurance if they do not have health insurance coverage. Commonwealth Care provides health insurance coverage that meets many health care needs, including doctor office visits for both well and sick visits, inpatient hospital care, pharmacy benefits, mental health and substance abuse services, and much more.

FCHP Commonwealth Care network

Fallon Community Health Plan's Commonwealth Care network is a tailored network of providers at medical centers you know and trust. FCHP Commonwealth Care providers are carefully chosen for their medical excellence, patient access and innovation. You can be seen at physician practices, community hospitals and medical facilities across our Commonwealth Care service area.

The FCHP difference

With FCHP Commonwealth Care, you get comprehensive medical benefits and everything you need to live a healthy life.

- **\$0 copayments for routine physical exams** with your primary care physician (internist, family practitioner or pediatrician) or gynecologist for routine physical exams.
- **A fitness reimbursement of up to \$200** for healthy activities including town and school sports, Weight Watchers®, gym memberships, yoga and Pilates.
- **Member discounts** on products and services to keep you healthy and features you won't find anywhere else.

How to receive care

Choosing a primary care provider (PCP)

Your relationship with your PCP is very important because he or she will work with FCHP to provide or arrange most of your care. You must choose a PCP in the FCHP Commonwealth Care network within 15 days of your enrollment. You can find a PCP by going to fchp.org, or by calling Customer Service at 1-800-868-5200 (TDD/TTY: 1-877-608-7677).

Obtaining specialty care

When you want to visit a specialist, talk with your PCP first. He or she will help arrange specialty care for you. The following services do not require a referral when you see a provider in your plan's network: routine obstetrics/gynecology care, screening eye exams, behavioral health services and other services. For more information on referral procedures for specialty services, consult your FCHP Commonwealth Care *Member Handbook/Evidence of Coverage*.

Emergency medical care

Emergency services do not require referral or authorization. When you have an emergency medical condition, you should go to the nearest emergency department or call your local emergency communications system (police, fire department or 911). For more information on emergency benefits and plan procedures for emergency services, consult your FCHP Commonwealth Care *Member Handbook/Evidence of Coverage*.
