PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS
WE COVER IN THE PLANS LISTED ABOVE

What is a formulary?

A formulary is a listing of prescription drugs that are approved for coverage by Fallon Health. These drugs are classified by therapeutic category or disease class.

Fallon uses a 4-tier formulary for Direct Care and Select Care Copay 1000 Hybrid, Deductible 1000 Hybrid and Deductible 2000 Hybrid. The covered prescription drugs are on the following pages. Please note that the drugs not on the following list will not be covered by your Fallon prescription drug benefit under any circumstances.

How do I use the formulary?

The chart on the following pages provides coverage information about the drugs covered by Fallon. Covered medications are listed alphabetically. Both brand name drugs and generic drugs are included, so you may look up either name.

- The first column (Drug Name) lists the names of the covered drugs in alphabetical order. Brand-name drugs are capitalized (e.g., LIPITOR) and generic drugs are listed in lowercase (e.g., amoxicillin).
- The second column (Drug Tier) identifies which Tier each drug falls into.
- The third column (Requirements/Limits) tells you if there any special requirements for coverage of your drug.

The following is an explanation of the codes that may appear in this column. Please note that all of the covered drugs listed in this formulary are available through mail-order.

Code	Explanation
ST	Step therapy. In some cases, Fallon requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we will not cover Drug B unless you try Drug A first. If Drug A does not work for you, we may then cover Drug B.
PA	Prior Authorization. Fallon requires you (or your physician) to get prior authorization for certain drugs. This means that you will need to get approval from Fallon before you fill your prescriptions. If you don't get approval, Fallon may not cover the drug.
QL	Quantity Limit. For certain drugs, Fallon limits the amount of the drug that Fallon will cover. For example, Fallon provides 30 each per 30 day supply for Lidoderm. This may be in addition to a standard one month or three month supply.
SP	Specialty pharmacy. Drugs carrying this code must be filled using the CVS Caremark Specialty Pharmacy mail-order service. With the exception of the initial fill, these prescriptions cannot be filled at a network retail pharmacy location. Note: All specialty prescription drugs are limited to a 30-day supply.

ACA Preventive Service \$0	Indicates drug offered at \$0 cost share due to regulations in the Affordable Care Act (ACA).
Oral Chemo Mandate \$0	This indicates drug covered for \$0.

What if my drug is not on the formulary?

There may be periodic changes to the drugs listed in this formulary. To determine whether a particular drug is included or excluded from the formulary, please call Customer Service at the phone number on the back of your member ID card. TTY users, please call TRS 711. We are available Monday, Tuesday, Thursday and Friday from 8 a.m. to 6 p.m. and Wednesday from 10 a.m. to 6 p.m. You may also access our website, fallonhealth.org, to view the updated formulary online.

Can the formulary change?

Yes, Fallon may add or remove drugs from our formulary during the year. If we remove drugs from our formulary during the year, we must notify you of the change at least 60 days before the date that the change becomes effective.

For more information

For more detailed information about your prescription drug coverage through Fallon, please review your *Member Handbook/Evidence of Coverage* and other plan materials. You can also get more information about the restrictions applied to specific covered drugs by visiting our website at fallonhealth.org. If you have additional questions, you can speak with any member of our Customer Service team.
